ABSTRAK

Penelitian ini bertujuan untuk mengetahui implementasi hukum penyelenggaraan program keluarga berencana dalam upaya pengendalian pertumbuhan penduduk di BKKBN Provinsi Jawa Tengah dan faktor-faktor yang cenderung mempengaruhi implementasi hukum penyelenggaraan program keluarga berencana dalam upaya pengendalian pertumbuhan penduduk di BKKBN Provinsi Jawa Tengah.

Penelitian ini menggunakan metode penelitian kualitatif dengan pendekatan yuridis empiris dan spesifikasi penelitian deskriptif. Penelitian ini mengambil lokasi di Badan Kependudukan dan Keluarga Berencana (BKKBN) Semarang dengan informan sebanyak 3 orang. Metode penentuan informan menggunakan *purposive sampling* atau *criterion based selection* dan *Snowball Sampling*. Jenis dan sumber data yang digunakan meliputi data primer dan data sekunder yang diperoleh dengan metode wawancara, studi kepustakaan dan studi dokumentasi. Pengolahan data dilakukan dengan cara reduksi data, *display* data dan kategorisasi data dan kemudian disajikan dalam bentuk teks naratif dan matriks data kualitatif. Analisis data kualitatif menggunakan model analisis isi (*content analysis*) dan analisis perbandingan (*comparative analysis*).

Hasil penelitian menunjukkan bahwa implementasi hukum penyelenggaraan program keluarga berencana dalam upaya pengendalian pertumbuhan penduduk di BKKBN Provinsi Jawa Tengah telah terlaksana secara efektif. Hal ini dibuktikan dengan hasil penelitian terhadap 6 (enam) indikator meliputi Efektifnya pengaturan jarak kehamilan, efektifnya menjaga kesehatan dan menurunkan angka kematian ibu, bayi dan anak, efektifnya peningkatan akses dan kualitas informasi pendidikan, konseling, dan pelayanan KB dan KR, efektifnya peningkatan partisipasi pria dan kesertaan pria dalam praktik KB, efektifnya promosi Air Susu Ibu (ASI), efektifnya pengendalian pertumbuhan penduduk serta faktor-faktor yang mempengaruhi implementasi hukum penyelenggaraan program keluarga berencana dalam upaya pengendalian pertumbuhan penduduk di BKKBN Provinsi Jawa Tengah.

Kata Kunci: Implementasi Hukum: Program Keluarga Berencana: Pengendalian Pertumbuhan Penduduk.

**Implementation of Family Planning Program
In Efforts to Control Population Growth
(Study in BKKBN Central Java Province)**

ABSTRACT

This research aims to determine the implementation of family planning program law in efforts to control population growth in BKKBN Central Java Province and factors that tend to influence the implementation of family planning program law in efforts to control population growth in BKKBN Central Java Province.

This research uses qualitative research methods with empirical juridical approaches and descriptive research specifications. This research took place at the Population and Family Planning Agency (BKKBN) Semarang with an informant of 3 people. The method of determining informants uses purposive sampling or criterion based selection and Snowball Sampling. The types and data sources used include primary data and secondary data obtained by interview methods, literature studies and documentation studies. Data processing is done by means of data reduction, data display and data categorization and then presented in the form of narrative text and qualitative data matrix. Qualitative data analysis using content analysis and comparative analysis.

The results showed that the implementation of the law of organizing family planning programs in an effort to control population growth in BKKBN Central Java Province has been implemented effectively. This is evidenced by the results of research on 6 (six) indicators including effectively setting the distance of pregnancy, effectively maintaining health and lowering the mortality rate of mothers, infants and children, effectively improving access and quality of education information, counseling, and KB and KR services, effectively increasing male participation and male participation in birth control practices, effective promotion of breast milk (breast milk), effective control of population growth as well as factors that influence the implementation of family planning programs in efforts to control population growth in BKKBN Central Java Province.

Keywords: Law Implementation; Family Planning Program; Controlling Population Growth.
